FOREWORD

The Indian Council of Medical Research (ICMR), New Delhi, the apex body in India for the formulation, coordination and promotion of biomedical research, is one of the oldest medical research bodies in the world. The Council promotes biomedical research in the country through intramural research (through Institutes totally funded by ICMR) and extramural research (through grants-in-aid given to projects in non-ICMR Institutes). Intramural research is carried out currently through the Council's Permanent National Research Institutes/Centres, which are mission-oriented institutes located in different parts of India and address themselves to research on specific topics like medical sciences- both applied & basic, molecular biology, genetics, physiology, pathology, parasitology, tuberculosis, leprosy, cholera and diarrheal diseases, viral diseases including AIDS, malaria, kala-azar, vector control, nutrition, food & drug toxicology, reproduction, immuno-haematology, oncology, medical statistics, maternal & child health *etc.* Regional Medical Research Centres primarily address regional health problems, and also aim to strengthen or generate research capabilities in different geographic areas of the county.

Several decades of biomedical research under the Council has yielded a wealth of information in various fields. Therefore, the need of an excellent, comprehensive document for the publications of the council has become meaningful. The present edition coincides with the 'Centenary Celebrations of ICMR (1911-2011)'. The purpose of the document is to provide health workers, researchers, students, policymakers and other interested parties with information about the research papers published by scientists of ICMR institutes.

We hope that this would be an useful document for the academicians, researchers and workers and provide on the spot information on the papers published in any scholarly journal, from the council during the last nearly 100 years. I compliment the Publication & Information Division of the ICMR for this extra-ordinary effort of preparing this document.

Dr. V.M. Katoch
Secretary, DHR, Govt. of India
& Director General, ICMR

PREFACE

Research publications are one of the indicators of progress of any scientific discipline. Scientists of the council have contributed immensely in the development of several critical discipline of biomedical research in the country during the last 100 years.

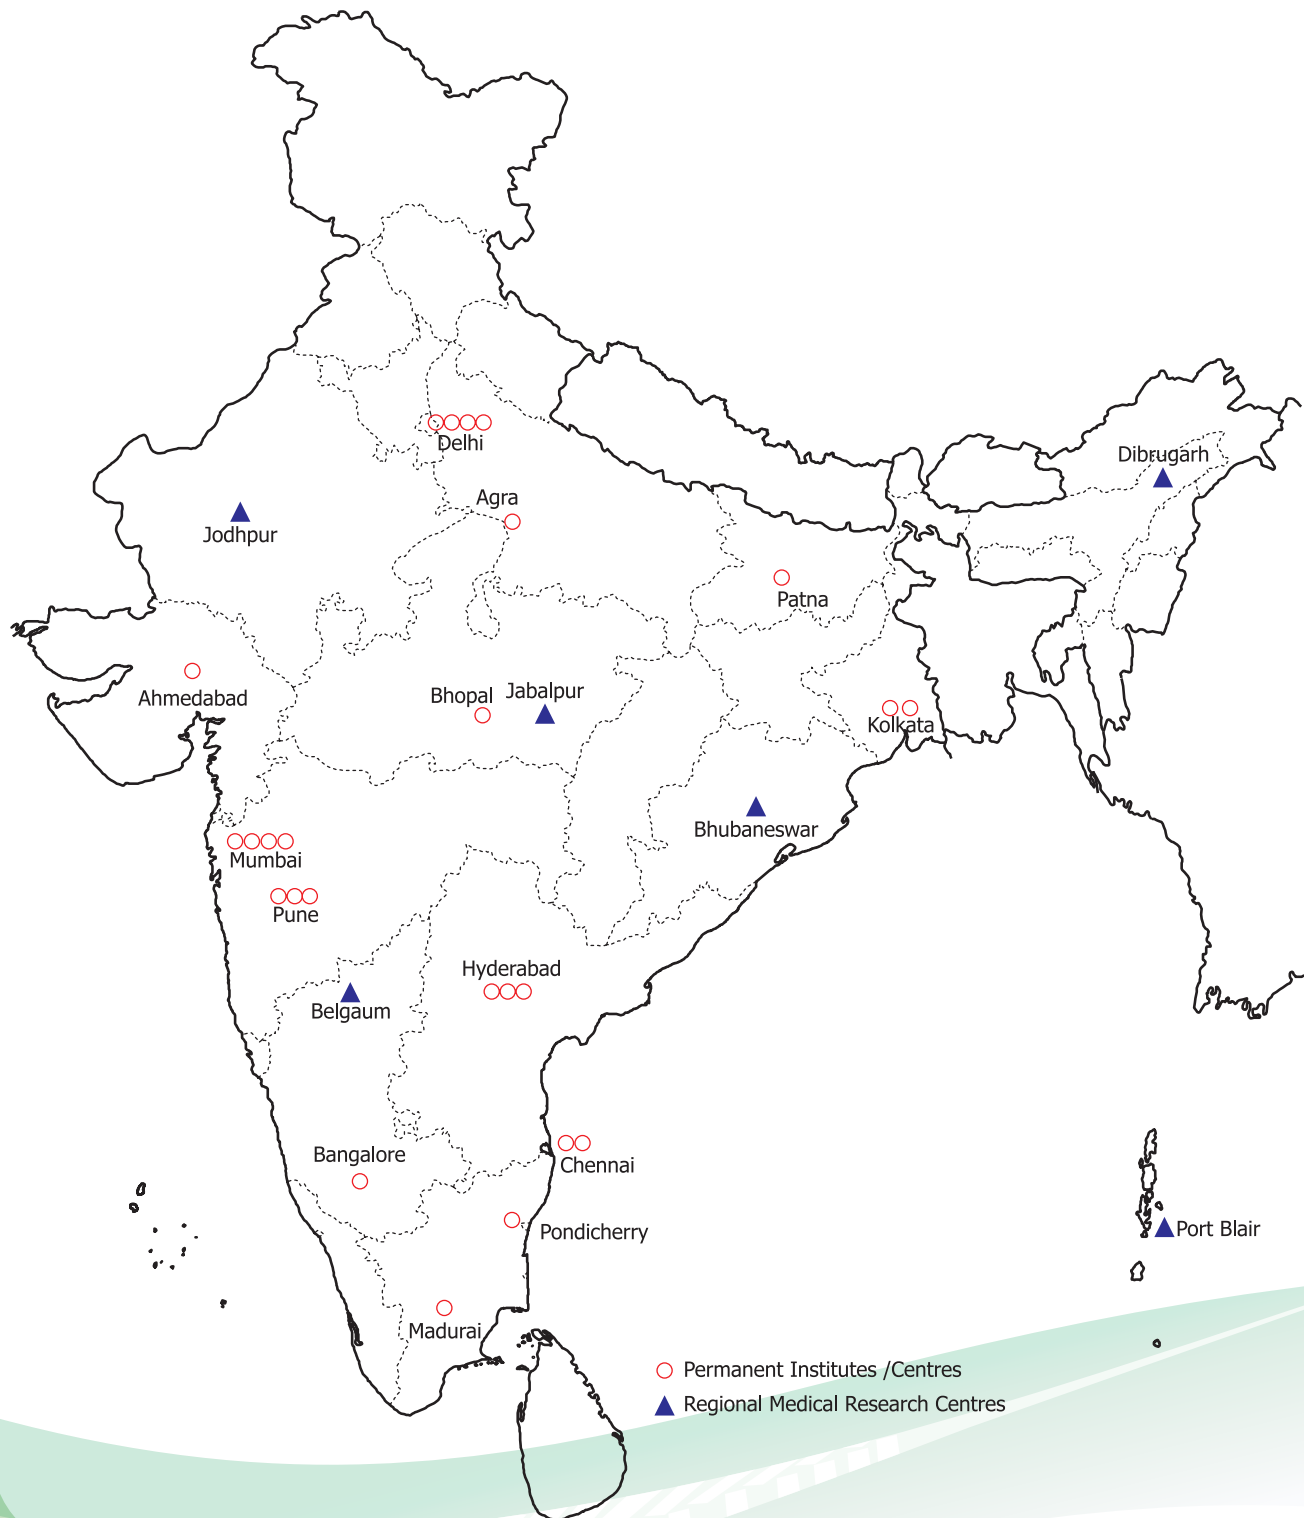

The goal of Publications Database is to provide a document that serves not only the needs of the scientists of the council but the biomedical research community as a whole, which requires easy access to the research work undertaken by the ICMR scientists and to make maximum use of those papers to solve needs of the society.

The challenge was to provide users with the means to efficiently and intuitively query, browse, and download a variety of complex information. In addition, efforts are made to maintain data integrity by associating data with researchers, references and different sources whenever possible for standard abbreviations of journals, maintaining uniformity in rendering names of authors and journals, country of publication of journal and its status (in terms of coverage by major secondary global services like MEDLINE and WOS), change in name of the journal (if any). On the basis of data so far collected (from 1919-2010), a compendium has been developed to provide a comprehensive document containing papers published in journals only, from permanent institutes and RMRC's of the council. In the final document, papers have been sorted year-wise and within the year papers are arranged alphabetically first author-wise. In the case of papers appearing more than once (because of coauthor ship between institutes), the duplicates have been removed.

INDIAN COUNCIL OF MEDICAL RESEARCH

AN INTRODUCTION

Indian Council of Medical Research (ICMR) is one of the oldest medical research councils in the world. In 1911, officers of the then Indian Medical Services had the vision and foresight to create Indian Research Fund Association. Soon after independence, it was rechristened as Indian Council of Medical Research in pursuance of the recommendations of the Health Survey and Development Committee headed by Sir Joseph Bore. What was started to conduct “enquiry” into health problems, has blossomed into a vibrant network of 31 permanent Institutes/Centres and over 70 field stations, employing over 5000 personnel including 750 scientists. Its allocation has also grown over successive plan period. In the 11th Plan it stood at Rs. 4496 crores.

The ICMR has evolved over the years in line with changing health research needs, effectively addressing the new challenges that have emerged as a result of the economic, demographic, nutritional and epidemiological transition of the country. With the changing health challenges, the demands on ICMR are also increasing. The mission of ICMR is to promote better health through research. It provides stewardship, conducts and supports research, generates knowledge and ensures utilization of knowledge in areas of national public health importance.

The role of research and modern science in fighting diseases and improving health is being increasingly re-emphasized. Links between research and disease control programmes are being better appreciated. The current strategy of ICMR has close interaction with health systems, including disease control programmes which is supported by continued exploitation of scientific and technological advances from basic to applied, biomedical to health sciences and from laboratory to field research.

The Council has accepted a twin track approach to meet its objectives –intramural (through its institutes) and extramural research (through grants-in-aid to projects in non-ICMR institutions).

The Permanent institutes of ICMR are mission-oriented discipline/disease-specific laboratories strategically located in different parts of the country. Extramural research is promoted basically to strengthen the biomedical expertise and infrastructure especially in medical colleges and the university system, aimed at developing and fostering a culture of research in academia. Currently, the ICMR spends about 25% of its budget on extramural research programme.

The research priorities of the Council coincide with health policy and priorities of the country. It works very closely with the national programmes, which have well designed targets for control, elimination and eradication of diseases. The ICMR is actively engaged in various aspects of research for control of communicable diseases (HIV/AIDS, tuberculosis, malaria and others); infectious diseases targeted for elimination (kala-azar, lymphatic filariasis, leprosy) and those targeted for eradication (yaws, poliomyelitis); non-communicable diseases (cardiovascular diseases, neurological disorders, metabolic diseases, cancers, injuries, *etc.*); and improving maternal and child health including nutrition.

The majority of the research activities of the Council are directed towards diseases that have significant links with poverty. It has a special focus on health of marginalized and under privileged section of society. It is responsive to issues of equity, gender, ethnicity, race and caste.

The ICMR has provided critical research support whenever the health needs of the country demanded rapid responses. Recent examples that are of such national concerns are SARS, Avian Flu (H5N1), pandemic flu (H1N1) and other new and emerging infections.

With globalization, international collaborative research has also increased. The Council has played an important role in defining the limits of collaborative research and ensuring that such research is conducted in an ethically acceptable manner.

COMPENDIUM OF ICMR RESEARCH PAPERS (1919-2010) – A CONSOLIDATION

1. McCarrison R: Effect of scorbutic diet on the adrenal glands. *Br Med J* 1919; 2(3059): 200, **Journal Country-** UK **Medline-** Y **Web of Science-** Y
2. McCarrison R: The influence of deficiency of accessory food factors on the intestine. *Br Med J* 1919; 2(3054): 36–39, **Journal Country-** UK **Medline-** Y **Web of Science-** Y
3. McCarrison R: Involution of the thymus in birds. *Indian J Med Res* 1919; 6:557-559, **Journal Country-** India **Medline-** Y **Web of Science-** Y
4. McCarrison R: The pathogenesis of deficiency disease - i. *Indian J Med Res* 1919; 6:275-355, **Journal Country-** India **Medline-** Y **Web of Science-** Y
5. McCarrison R: The pathogenesis of deficiency disease - ii the effects of deprivation of 'b' accessory food factors. *Indian J Med Res* 1919; 6:550-556, **Journal Country-** India **Medline-** Y **Web of Science-** Y
6. McCarrison R: The pathogenesis of deficiency disease - iii the influence of dietaries deficient in accessory food factors on the intestine. *Indian J Med Res* 1919; 7:167-187, **Journal Country-** India **Medline-** Y **Web of Science-** Y
7. McCarrison R: The pathogenesis of deficiency disease - iv the influence of scorbutic diet on the adrenal glands. *Indian J Med Res* 1919; 7:188-194, **Journal Country-** India **Medline-** Y **Web of Science-** Y
8. McCarrison R: The pathogenesis of deficiency disease - v histo-pathology. *Indian J Med Res* 1919; 7:269-278, **Journal Country-** India **Medline-** Y **Web of Science-** Y
9. McCarrison R: The pathogenesis of deficiency disease - vi the influence of a scorbutic diet on the bladder. *Indian J Med Res* 1919; 7:279-282, **Journal Country-** India **Medline-** Y **Web of Science-** Y
10. McCarrison R: The pathogenesis of deficiency disease - vii the effects of autoclaved rice dietaries on the gastro-intestinal tract of monkeys. *Indian J Med Res* 1919; 7:283-307, **Journal Country-** India **Medline-** Y **Web of Science-** Y
11. McCarrison R: The pathogenesis of deficiency disease - viii the general effect of deficient dietaries on monkeys. *Indian J Med Res* 1919; 7:308-341, **Journal Country-** India **Medline-** Y **Web of Science-** Y
12. McCarrison R: The pathogenesis of deficiency disease - ix on the occurrence of recently developed cancer of the stomach in a monkey fed on food deficient in vitamins. *Indian J Med Res* 1919; 7:342-345, **Journal Country-** India **Medline-** Y **Web of Science-** Y
13. McCarrison R: The genesis of oedema in beri-beri. *Proc R Soc B Res* 1919; 91:103-110, **Journal Country-** UK **Medline-** N **Web of Science-** N
14. McCarrison R: Deficiency disease. *Br Med J* 1920; I:822-826, **Journal Country-** UK **Medline-** Y **Web of Science-** Y
15. McCarrison R: Dietetic deficiency and endocrine activity with special reference to deficiency oedemas. *Br Med J* 1920; II:236-239, **Journal Country-** UK **Medline-** Y **Web of Science-** Y
16. McCarrison R: The effect of deficient dietaries on monkeys. *Br Med J* 1920; 1: 249-253, **Journal Country-** UK **Medline-** Y **Web of Science-** Y
17. McCarrison R: The influence of deficiency and iii-balanced dietaries in favouring the development of gastro-intestinal infections. *Indian J Med Res* 1920; 7:38-43, **Journal Country-** India **Medline-** Y **Web of Science-** Y

18. McCarrison R: The pathogenesis of deficiency disease - x the effects of some food deficiencies and excesses on the thyroid gland. *Indian J Med Res* **1920**; 7:633-647, **Journal Country-** India **Medline-** Y **Web of Science-** Y
19. McCarrison R: The diet of well-to-do children. *Lancet* **1921**; 1: 348, **Journal Country-** UK **Medline-** Y **Web of Science-** Y
20. McCarrison R: Observations on the effects of fat excess on the growth and metamorphosis of tadpoles. *Proc R Soc B Res* **1921**; 92:295-303, **Journal Country-** UK **Medline-** N **Web of Science-** N
21. McCarrison R: Fats in relation to the genesis of goitre. *Br Med J* **1922**; 1:178-181, **Journal Country-** UK **Medline-** Y **Web of Science-** Y
22. McCarrison R: Simple goitre. *Br Med J* **1922**; 1: 636-651, **Journal Country-** UK **Medline-** Y **Web of Science-** Y
23. McCarrison R: Faulty food in relation to gastro-intestinal disorder. *Lancet* **1922**; 1:207-212, **Journal Country-** UK **Medline-** Y **Web of Science-** Y
24. McCarrison R: Effect of faulty foods on endocrine glands. *NY Med J* **1922**; 115:304-314, **Journal Country-** USA **Medline-** N **Web of Science-** N
25. McCarrison R: The function of the adrenal glands and its relation to concentration to h-ions. *Br Med J* **1923**; 1:101-102, **Journal Country-** UK **Medline-** Y **Web of Science-** Y
26. McCarrison R: Pathogenesis of deficiency disease - xi observations on fat excess in relation to iodine requirements and to the thyroid gland. *Indian J Med Res* **1923**; 11:1-51, **Journal Country-** India **Medline-** Y **Web of Science-** Y
27. McCarrison R: Pathogenesis of deficiency disease - xii concerning the function of the adrenal gland and its relation to concentration of hydrogenions. *Indian J Med Res* **1923**; 10:861-899, **Journal Country-** India **Medline-** Y **Web of Science-** Y
28. McCarrison R: Pathogenesis of deficiency disease - xiii effects of heat cold serum and sunlight on the action of epinephrin and adrenalin hydrochloride. *Indian J Med Res* **1923**; 10:900-907, **Journal Country-** India **Medline-** Y **Web of Science-** Y
29. McCarrison R: Pathogenesis of deficiency disease - xiv on the occurrence of ophthalmia in pigeons fed exclusively on parboiled rice and on its prevention by the addition of soil to the food. *Indian J Med Res* **1923**; 11:323-335, **Journal Country-** India **Medline-** Y **Web of Science-** Y
30. McCarrison R: Goitre. *Br Med J* **1924**; 1:989-994, **Journal Country-** UK **Medline-** Y **Web of Science-** Y
31. McCarrison R: Relationship of manure to nutritive and vitamin value of certain gram. *Br Med J* **1924**; 1: 567-569, **Journal Country-** UK **Medline-** Y **Web of Science-** Y
32. McCarrison R: Effects of the long continued ingestion of tyramine and histamine. *Indian J Med Res* **1924**; 11:1137-1156, **Journal Country-** India **Medline-** Y **Web of Science-** Y
33. McCarrison R: Pathogenesis of deficiency disease - xv effect of asphyxia on the action of adrenalin - xvi effect of carbon-dioxide on the action of adrenalin. *Indian J Med Res* **1924**; 11:749-769, **Journal Country-** India **Medline-** Y **Web of Science-** Y
34. McCarrison R: Pathogenesis of deficiency disease - xvii the relation of faulty nutrition to the development of epithelioma contagiosum. *Indian J Med Res* **1924**; 11:1119-1129, **Journal Country-** India **Medline-** Y **Web of Science-** Y
35. McCarrison R: The effect of the excess ingestion of certain aminoacids on the growth metamorphosis and thyroid gland of tadpoles. *Indian J Med Res* **1924**; 11:1131-1136, **Journal Country-** India **Medline-** Y **Web of Science-** Y
36. McCarrison R: Discussion on non-specific disturbances of health due to vitamin deficiency. *Proc R Soc Med Remarks-* C-J *R Soc Med* **1924**; 18:15-24, **Journal Country-** UK **Medline-** Y **Web of Science-** N
37. McCarrison R: Effect of vitamin deficiency on the gastro-intestinal tract. *Proc R Soc Med* **1924**; 18:1-2, **Journal Country-** UK **Medline-** Y **Web of Science-** N
38. McCarrison R: Thyroid disease. *Br Med J* **1925**; 1:1065-1067, **Journal Country-** UK **Medline-** Y **Web of Science-** Y
39. McCarrison R: Problems of food with special reference to india. *J R Soc Arts Remarks-* C-RSA *J* **1925**; 73:135-161, **Journal Country-** UK **Medline-** Y **Web of Science-** N

40. McCarrison R: Relationship of diet to physical efficiency of Indian races. *Practitioner* **1925**; 114:99-100, **Journal Country-UK Medline- Y Web of Science- Y**
41. McCarrison R: A note on lathyrism in the gilgit agency. *Indian J Med Res* **1926**; 14:379-381, **Journal Country- India Medline- Y Web of Science- Y**
42. McCarrison R: The effect of manurial conditions on the nutritive and vitamin values of millet and wheat. *Indian J Med Res* **1926**; 14:351-378, **Journal Country- India Medline- Y Web of Science- Y**
43. McCarrison R: The effects of the excessive ingestion of lime on the thyroid gland and influence of iodine in counteracting them. *Indian J Med Res* **1926**; 13:817-821, **Journal Country- India Medline- Y Web of Science- Y**
44. McCarrison R: A good diet and a bad one : an experimental contrast. *Indian J Med Res* **1927**; 14:649-654, **Journal Country- India Medline- Y Web of Science- Y**
